

## Basic information

- Introduction/information at arrival will be held by the responsible staff from Arctic Falls.
- To enter the Indoor Proving Ground you will need a key tag or temporary code. Key tag will be provided at arrival.
- For fuelling, please ask Arctic Falls staff for support.
- Charging possibilities: Wall boxes: 22kW AC type 2 and Fast charger: 50kW DC CCS2.
- The tap water is tasty, fresh and good to drink.
- In Bergsviken you find a supermarket, restaurant and fuelling options (5 min drive).
- To use the snow cannons please contact Arctic Falls staff.
- Snow cannons can produce different snow qualities from dry to wet snow.
- To use the climate chamber please contact Arctic Falls staff.
- All vehicles and tyres that are brought inside must be cleaned thoroughly.
- We can offer a 400m long and 10m wide handling track or any track layout of your choice in Indoor Flex.
- Tests such as snow intrusion tests and NVH tests are available in Indoor Flex.
- Indoor One and Indoor Flex can be used in combination.

## Safety & security

- Before tests in Indoor a risk assessment must be performed by the customer supervisor together with Arctic Falls staff.
- Headlights on is mandatory at all times.
- Use of seat belts is mandatory.
- Driving under the influence of alcohol, medicines or psychotropic substances is forbidden.
- For charging of electric vehicles please contact the Arctic Falls staff.
- All hybrid and electric vehicles must have a towing hook in case of fire.
- All charging of electric vehicles must be supervised unless otherwise agreed.
- **In case of emergency, dial 112 and request help at Arctic Falls Indoor One Skjutbanevägen 50 or Indoor Flex Skjutbanevägen 30.**

If you have any questions or requirements don not hesitate to contact our staff. Staff on site is reachable at any time on +46 929 47 47 56
